CollectionSpace: Supporting UC Berkeley museums

How would you care for 3.5 million cultural objects, plants and works of art?

CollectionSpace brings excellence in stewardship and sharing to campus museums and collections

- Online access by visitors and researchers worldwide
- Barcoded location tracking across exhibit, storage, conservation and research facilities
- Local expertise in data migration, deployment and service hosting
- Reduced software redundancy and risk

Customizable—provides the flexibility needed to fit the diverse expertise of our campus partners:

- The University and Jepson Herbaria
- Phoebe A. Hearst Museum of Anthropology
- Botanical Garden
- CineFiles
- BAM/PFA

Lyrasis: a home for the software, a base for the broader community of institutions and developers

- Hosted software-as-a-service
- Sustainable business model
- Non-profit foundation
- Domain-based communities of practice
- Partnering with vendors and service providers
- Exploring boundaries (libraries, archives, museums, beyond higher education)

The Berkeley Art Museum/Pacific Film Archive is preparing to move 30,000 works of art, film, video, clippings and ephemera to its future home on Oxford Street—powered by CollectionSpace

CollectionSpace is funded by grants from the Andrew W. Mellon Foundation, the Institute of Museum and Library Services and the UC Berkeley Office of the CIO
